

Amendment to the Claims

Claims 1-20 (cancelled) These claims have been allowed in co-pending application Serial Number 10/356,975.

Claim 21 (original): A dispensing panel for connecting with an ice dispenser comprising;

a display front;

an ice delivery chute beneath said display front adapted to receive ice from said ice dispenser,

a shelf arranged approximately two feet beneath said delivery chute, said shelf being capable of supporting an ice chest; and

an activating unit, including a money receptacle and changer, for activating said ice dispenser to deliver ice to said delivery chute.

Claim 22 (original): The panel of Claim 20 wherein said delivery chute is arranged in a recess below said display front.

Claim 23 (original): The panel of Claim 20 including a bag dispenser in said dispensing panel for supplying bags for said ice.

Claim 24 (new): An ice dispensing machine including a compartment having a display front.

said compartment containing an ice making machine and an ice dispenser, said dispenser being adapted to receive, store and dispense ice.

said display front having a delivery chute, a support tray and an actuator, including a money receptor, said support tray being positioned about 2 feet beneath said delivery chute, said chute being connected with said dispenser and said

actuator being operative to activate said dispenser to deliver a set volume of ice;
whereby,

with a large container positioned on said support and money
inserted into said receptor, said actuator is operative to cause a pre-set volume of ice to
be delivered through said chute and into said container.

Claim 25 (new): The ice dispensing machine of claim 24 wherein said display
front includes a bag dispenser; whereby,

said container may comprise a bag dispensed from said bag
dispenser.

Claim 26 (new): The ice dispensing machine of claim 24 wherein said
container is an ice chest.

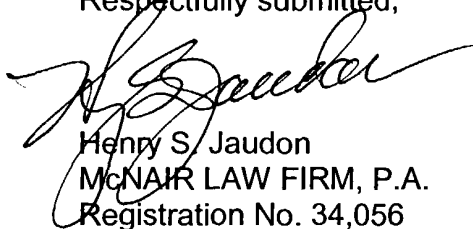

Claim 27 (new): The ice dispensing machine of claim 24 wherein said
actuator includes a bill receptor and changer.

Claim 28 (new): The ice dispensing machine of claim 24 wherein said display
front includes a recess, said delivery chute and said shelf being mounted within said
recess.

Claim 29 (new): The ice dispensing machine of claim 28 wherein said shelf is
pivotally mounted within said receptor.

Claim 30 (new): The ice dispensing machine of claim 24 wherein said display
front includes a display panel above said delivery chute.

Respectfully submitted,
